ABOUT ME

I am an enthusiastic, passionate, and driven creator currently attending Oakland University.

I spend my free time applying what I've learned from university on freelance projects while adopting industry standards and adapting my own set of processes.

PROSPECTIVE

While attending university, I am seeking part time work or an internship during fall and winter semesters while full time in the summers.

EDUCATION

Oakland University

I have been attending OU since 2016. I began as a Graphic Design major and switched to Computer Science after two years in Graphic Design.

The reason for me switching was due to the fact that computer science has endless possibilities.

SKILLSET

Web Development:

HTML, CSS, and basic JS.

Designing:

Adobe Programs as well as AutoCAD.

Programming:

Basic Java, C, and UNIX.

EXPERIENCE

Nexteer Automotive

Global Quality Summer Intern

May 2019 - August 2019

- Created and enhanced training materials which are used by all Nexteer employees.
- Supported development of the Global Quality Operating System.
- Worked on the front-end user interface for Nexteer's training page.

Oakland University

Office Assistant

September 2019 - Current

- Worked in Emaint software to manage the flow of work orders coming through to the university.
- Assisted Business Manager with journal vouchers.
- Worked with a team to build a database containing all keys assigned in the university.

SiriusVisuals

Founder

June 2015 - Current

- Produced high quality social media designs for numerous clients.
- Working towards selling premade design templates to eliminate wait time and cut costs for clients.
- Focused on brand identity as well as logo design with experience in multiple Adobe design programs.
